CONSISTENTLY GREAT COFFEE

Newco's LCD-2 liquid coffee dispensers are a great way to deliver consistently delicious coffee at the touch of a button. Our delivery system ensures highly accurate product to water ratios while protecting the extract from air ensuring the integrity of the coffee.

SIMPLICITY

The LCD-2 series delivers hot and fresh coffee at any time of day. Eliminate waste and stale coffee while reducing labor cost and coffee preparation.

METAL DOOR CONSTRUCTION

Only 9.9" wide, 26.07" tall, 16.68" deep. The LCD-2 Metal door with faucet dispense is designed for locations that prefer a more traditional style of dispensing coffee on demand. Each faucet can be set to deliver coffee at an individual ratio while the hot water faucet is available for allied product sales. A locking cabinet helps increase product security while the large graphic panel promotes a high quality image of your products.
